## PROFILE

Have been a passionate learner for a big part of my life and always looking for new path to challenge myself. Started learning and building web applications as a front-end developer for nearly a year, I've gained knowledge and experience in **HTML5, CSS3, Sass, Javascript ES6, React**. I have eyes for details and patience for meticulous work. Happy to combine my artistic nature and attention to details in this new role.

## EXPERIENCE

### **Front-end Developer, Freelance — Jan 2023, present**

- Working as front end developer in a team developing a data analytic platform for client in digital marketing, designing and building user dashboard using **React** and **MUI**.
- Collaborating with an outsourcing project working on building new control data platform for a bank, tasks including **React (Typescript)** and working with **APIs**.
- Designing and building landing web pages for clients based on requests
- Processing data and visualise it in different forms of sortable tables and charts

### **Professional Nail Artist, Business Owner — Sep 2015, present**

- Manage beauty salon business operation
- Deliver high quality designed nail art in a timely manner
- Maintain clean and organised working space
